**NOTICE OF RECEIPT OF PETITION TO AMEND THE ENERGY COMMISSION
DECISION FOR THE
HENRIETTA PEAKER PROJECT (01-AFC-18C)**

On February 6, 2003, the California Energy Commission (Energy Commission) received a petition to amend the Energy Commission Decision for the Henrietta Peaker Project. The Henrietta Peaker Project is a 96 MW natural gas-fired power plant. The project went on line in July 2002. The facility is located west of Lemoore, in an unincorporated part of Kings County, CA.

DESCRIPTION OF PROPOSED CHANGE: 1) Clarify and simplify the methodology for tracking and reporting emissions during startups and shutdowns, 2) eliminate the restriction on the number of startups and shutdowns, 3) provide a mechanism for reducing hourly, daily and annual PM 10 emissions based on measured lower PM10 source tests results, and 4) provide a mechanism for reducing PM10 emission offset requirements in the event that PM10 emission limits are lowered.
